Repeated wetting	hen: no toxic effects
Swimming test	rats: no toxic effects

### What people have had to say about Earthheart™ Insect Spray...

I've found one of the best ways to treat insect problems on trees is to mix Earthheart™ Insect spray with the all natural fertilizer Earthheart™ plant food. Then let the tree absorb it through the roots. Very effective!

*Deblen Service Company*

I'm amazed at how well Earthheart™ Insect Spray keeps the flies off of my show horses. It lasts 3 to 5 hours instead of the normal 15-20 minutes of relief they were getting from other products. I just spray on the Earthheart™ Insect spray and comb it in and it works great! Thank you so much!

*Deb Nelson, Menahga, MN*

I've tried many products and I just had to let you know how impressed I am with your product. I've gotten rid of the aphids on my hibiscus and spider mites on my ivy's. My plants look great now. Thanks! Earthheart™ Insect spray is my choice!

*Mark Craft, Nevis, MN*

## EARTHEART™ INSECT SPRAY

READ ENTIRE LABEL BEFORE EACH USE.

Directions for use: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

### INDOOR APPLICATIONS:

Provides control of crawling and flying household insect pests for up to 8 weeks. Control ants, boxelder bugs, brown dog ticks, cadelles, centipedes, cheese mites, cluster flies, clover mites, cockroaches, crickets, earwigs, fireants, flying moths, fruit flies, gnats, grasshoppers, house flies, mosquitoes, spiders, waterbugs, carpet beetles, bedbugs, fleas, ticks, clothes moths and lice.

### OUTDOOR APPLICATIONS:

Garden insects including Japanese beetles, whiteflies, aphids, lace bugs, ants, exposed thrips, spiders, red mites, and leafminers.

### OTHER OUTDOOR AREAS:

To kill crickets, earwigs and fleas, thoroughly spray infested area of weeds or brushy non-crop areas. For ants, thoroughly wet hills and runways. Repeat application as reinfestations occur. Treat around windows and doors, porches, screens, eaves, patios, garages, under stairways, and in crawl spaces where these pests may enter.
